# DARCO – Always one step ahead!

With continuous development, high quality and absolute reliability in each and every cooperation for an optimal range of care. This is how we leave our mark.

Over 35 years of expertise and quality, that's what the name DARCO stands for worldwide. Our international development team consists of orthopaedic footwear technicians and product designers dedicated to innovative product development in close collaboration with users and biomechanical institutes. From the innovative spirit of an American foot surgeon, who valued the well-being of his patients, to becoming a global company. Our origin is still our spirit and has been for decades – the DARCO brand is committed to this.

# Quality for 35 years

## DARCO PRODUCTS

**Preventive, postoperative as well as for trauma, diabetes and wound care**

Our products are backed by over 35 years of expertise in the field of foot and ankle care. DARCO products have accompanied foot surgeons for decades and have adapted to new surgical methods, trends and care standards. Discover more about interesting technical details and new materials, about indications and sizes, as well as the comprehensive DARCO therapy concept. The DARCO variety is convincing.

## SERVICE AND PARTNERSHIP

DARCO is committed to providing distributors and product users with the most comprehensive product information and background knowledge possible. Use our diverse communication channels: Through our sales staff in the office and in the field, via the web, social media or in person on site, of course! We provide our customers and suppliers with a flexible and fast service. We attach great importance to our overall performance.

Well cared for. Speedy recovery.  
Your DARCO Team

# AllRound Shoe®

Closed Healing Shoe

## INDICATIONS

- For postoperative care
- For wound care
- Arthritis

## INFOS

Pressure Measurements p. 122  
Studies p. 128

Right = Left

R = L

Exchangeable  
insoleFor diabetics with a  
suitable insoleCompensation shoe  
not necessary

Low weight

## FEATURES

- Closed shoe  
→ Protection from wetness and dirt
- Wide opening  
→ Easy foot insertion + space for bulky dressings
- Seamless comfort zone
- Rigid + long-sole reinforcement of the base of the shoe
- Outer sole made of EVA-rubber mixture  
→ Shock-absorbent + anti-slip
- Simple, individually adjustable closing system

Wide opening for easy  
foot insertion

Simple adjustable closing  
system

Anti-slip outsole

# Body Armor<sup>®</sup> Stirrup Acute

Ankle Orthosis

INFOS

## INDICATIONS

- Acute injuries of the ankle joint
- Postoperative rehabilitation
- Chronically weakened ligaments
- For prevention

Universal size

Right = Left

## FEATURES

- For stabilisation of the ankle joint
- Plantar modification of the width in the rearfoot area  
→ Optimal fit also in case of severe swelling
- Circular enveloping belts  
→ Firm + comfortable support
- X-ray permeable material
- Removable, washable inner liner

Studies p. 128

Right = Left

R = L

Low weight

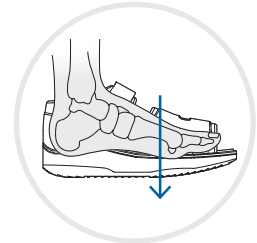

## FEATURES

- Windlass mechanism: Optional use with
  - Toe loop → Stretching the plantar fascia
  - Toe plate → Greater stretching of the flexor group + plantar fascia
- 90° position
  - Prevents equinus position + shortening of the Achilles tendon
- Anatomical fit
  - High wearing comfort, reduces pressure on tibial edge + back of the foot
- Fast + easy to put on

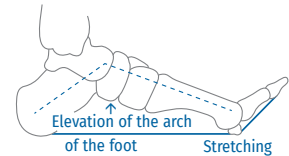

Adjustable hook-and-loop straps to make it easy to put on

Multiposition rubber ring to fix in various positions

The low profile of the splint reduces tension forces by up to 70%

Windlass mechanism

Washable

## FEATURES

- One size fits all
- Pressure redistribution to raised calf pad + recess in the heel area → Heel floats freely
- Extra high foot section → Orthograde position + pes equinus prophylaxis
- Long calf pad → Avoid hyperextension of the knee
- Asymmetrical design allows the side elements to overlap → Flexible size adjustment (Flexible-Flap-Design)
- Forefoot strap and pad → Secure foot position
- Forefoot pad → Avoid skin contact with strap
- Positioning wedge prevents hip rotation
- Additional foam padding → Individual customisation options
- Foam with bevelled edges and corners → Less pressure at the edges
- Side ventilation holes → Improved air circulation
- Smooth underside → Sliding of the leg on the support surface possible
- Label: For writing patient data + QR code for instructions for use
- Two foam variants: Smooth or convoluted
- Washable at 60°

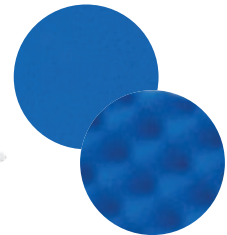

The heel floats  
freely

# MECRON ReadyDressment Strips

Elastic Stabilising Strips

## INDICATIONS

- Postoperative and conservative use for the redressment and stabilisation of finger and wrist joints as well as toe and foot joints
- Postoperative following open foot procedures
- Postoperative following minimally invasive foot procedures:
  - Akin osteotomies
  - Chevron osteotomies
  - DMMO (distal metatarsal metaphyseal osteotomies)
  - Claw toe / Hammer toe osteotomies
  - Curly toe osteotomies
  - Digitus quintus varus osteotomies
  - Tailor's bunions osteotomy
  - Tenotomies

INFOS

Time saving

## FEATURES

- Pre-cut in two different lengths
  - Individual anatomic adjustment + control
  - Easy application + correction option = time saving
- Provides a longer hold than wound closure strips
- Early functional aftercare possible
- Elastic: Stretchable by approx. 60 %
  - No binding
- Skin friendly dressing material
- Material: Cotton
- Can be worn for several days without restrictions
- Dynamic stabilisation
- Informative booklet with the first order (included)

After DMMO osteotomy

After Akin osteotomy

After chevron osteotomy

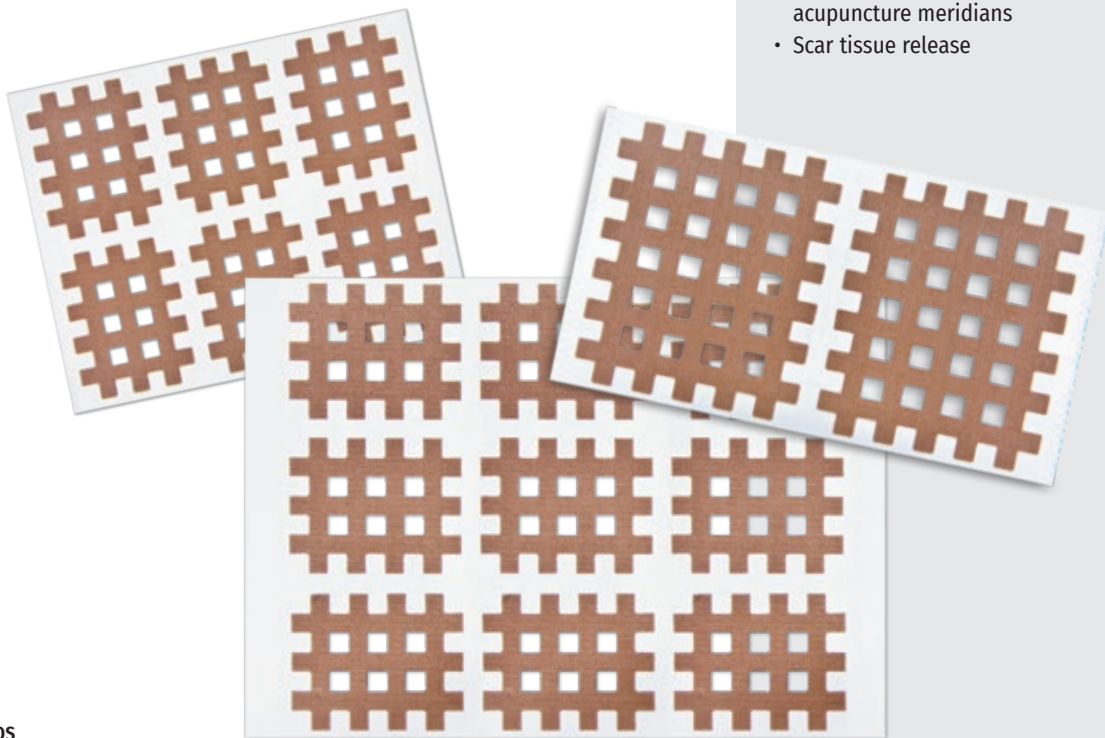

After hammer /  
claw toe osteotomy

# Relief Contour Insole

Arch Cushion Insole

## INDICATIONS

- For use following hallux valgus and small toe surgeries (Austin, Akin, Scarf, Weil, Hohmann, etc.)
- Talipes valgus, flat foot, splayfoot
- Angioneuropathic changes of the foot in combination with mild foot deformities

INFOS

Pressure Measurements p. 122

Right ≠ Left

For diabetics

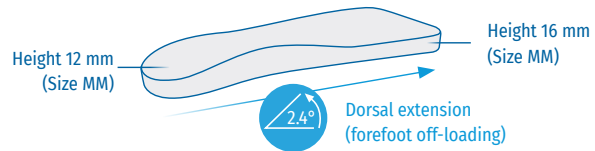

Time saving

## FEATURES

- Arch-cushion insole (long-sole)
- Anatomically adapted contours
  - Optimal pressure redistribution
- Contact between foot and sole over almost the entire surface
  - Pressure redistribution up to 90 %
- Dorsal extension: Negative heel of 2.4°
  - Forefoot off-loading
- Medial longitudinal arch and proximal transverse arch
  - Ideal load redistribution
- Customisable PU material with high shape recovery
- Soft lengthwise and crosswise sole covering
  - High wearing comfort
- Square Toe: Generous angular shape
  - Toe protection

## (DARCO Achilles Wedges)

Heel Wedges for Walkers

3 wedges =  
120° slant

### INDICATIONS

- Achilles tendon ruptures
- Postoperative use for Achilles tendon suture
- Postoperative due to removal of Haglund exostosis

INFOS

Universal size

Right = Left

## FEATURES

- 3-piece wedge set in different lengths
- 3 wedges = 120° slant  
→ Individual adjustment of the angle of plantar flexion
- Height of each wedge approx. 11 mm
- Quick fixation through adhesive dots applied

## (MIS Akin Spacer)

Toe Separator

### INDICATIONS

- Postoperative care of minimally invasive hallux valgus surgery (Akin osteotomy without osteosynthesis material)
- Conservative treatment of hallux valgus

INFOS

Universal size

Right = Left

## FEATURES

- Ensures the surgical outcome after MIS Akin surgery with approx. 10° overcorrection
- Ensures the desired osteotomy angle correction even in narrow (postoperative) shoes
- Corrects and separates toes that are close together
- Medical silicone = Soft, durable, smooth + non-slip
- Washable + disinfected → Easy cleaning
- Adapts to the contour of the toes
  - Protection from pressure pain
  - High wearing comfort
- Thickness 11 mm

## Knee Pediatric

Knee Orthosis for Children

INFOS

### INDICATIONS

- Conservative therapy for collateral ligament injuries
- Cruciate ligament instabilities
- Meniscus injuries
- Traumatic or degenerative knee joint changes
- Immobilisation after patellar luxation
- Post-traumatic, postoperative immobilisation
- Postoperative for cartilage transplants
- Corrective osteotomy to straighten the leg axis

Right = Left

Washable

## FEATURES

---

- 3-piece knee orthosis
- Immobilisation of the knee in the 0° position
- Removable + customisable stabilising rods (rear + lateral)  
Optimal immobilisation
- Customised fit to the leg circumference
- Hook and loop fasteners with strap loops  
→ Optimal hold
- Soft, padded material
- Washable at 30°
